

# Write up challenge Javascript - Obfuscation 2

Tác giả:

- **Nguyễn Mỹ Quỳnh**

[Link Challenge](#)

Truy cập challenge ta thấy một trang trống.

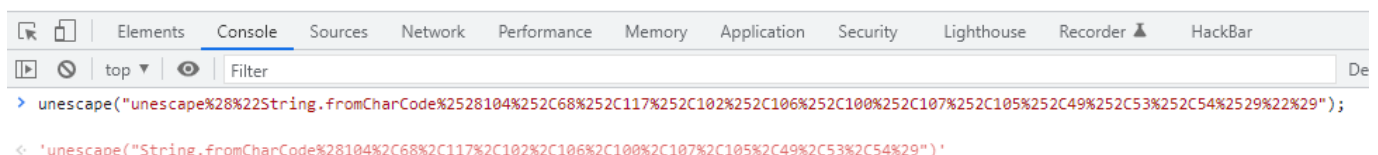

Tiến hành inspect thử, ta thấy có một biến `pass` được gán bằng

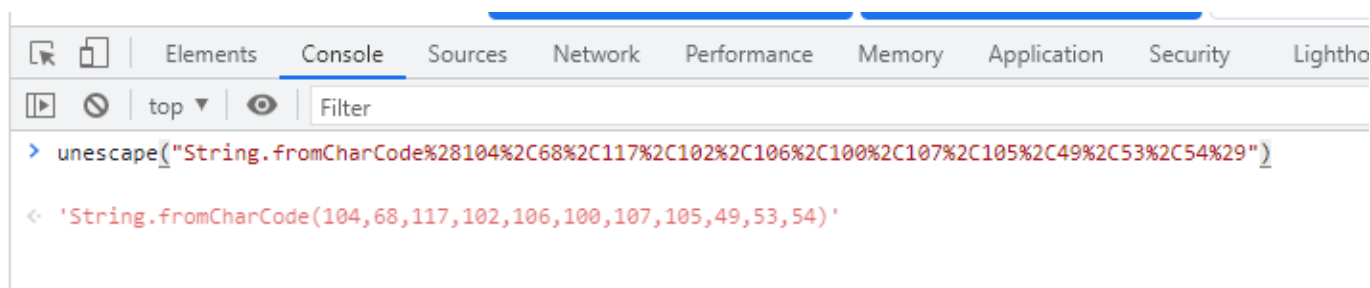

```
unescape("unescape%28%22String.fromCharCode%2528104%252C68%252C117%252C102%252C106%252C100%252C107%252C105%252C49%252C53%252C54%2529%22%29");
```

```
<html>
<head>
  <title>Obfuscation JS</title>
  <!--
  Obfuscation
  .Niveau : Facile
  .By Hel0ck
  .The mission :
    Retrouver le password contenu dans la var pass.
    You need my help ? IRC : irc.root-me.org #root-me
  -->
  <script type="text/javascript">
    var pass = unescape("unescape%28%22String.fromCharCode%2528104%252C68%252C117%252C102%252C106%252C100%252C107%252C105%252C49%252C53%252C54%2529%22%29");
  </script>
</head>
```

Sử dụng Console trong Developer Tools để unescape chuỗi trên

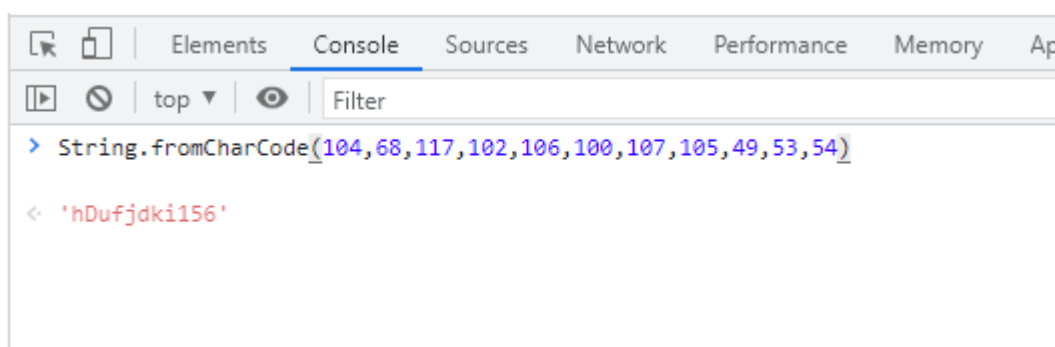

## Tiếp tục unescape

```
> unescape("String.fromCharCode%28104%2C68%2C117%2C102%2C106%2C100%2C107%2C105%2C49%2C53%2C54%29")  
< 'String.fromCharCode(104,68,117,102,106,100,107,105,49,53,54)'
```

Tiếp tục thực thi chuỗi vừa thu được, ta thu được một chuỗi kí tự có vẻ như pass là "hDufjdk156"

```
> String.fromCharCode(104,68,117,102,106,100,107,105,49,53,54)  
< 'hDufjdk156'
```

Dùng chuỗi đó submit challenge. Thành công !
